NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

Some members of Congress have proposed placing the following conditions on any company receiving federal bailout money to ensure that taxpayer money benefits workers, not CEOs. Other members of Congress say that these restrictions are undue government influence on the free market and will destroy jobs. For each condition say whether you support or oppose it. -- Companies must maintain their payrolls and use funds to keep people working or on payroll.
