

DATA FOR PROGRESS

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

The Coronavirus relief law passed only provides paid leave for a small percentage of Americans, as Senate Republicans blocked a measure that would have provided expansive paid sick and family and medical leave for most people who may be unable to work during the Coronavirus pandemic due to sickness or to take care of loved ones. How concerned are you about this?

The first Coronavirus case in the US & South Korea was detected on the same day. South Korea has tested hundreds of thousands of people and the Coronavirus outbreak is under control. Due to the failed response of the Trump Administration, the US has tested fewer than one hundred thousand and cases are exploding. How concerned are you about this?
