

NB: subgroups with a n-size less than 100 (<100) are not shown on these cross-tabs. We choose not to display N<100 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

Below we will show some provisions in "Coronavirus Aid, Relief, and Economic Security Act" or CARES Act. For each provision, say whether you support or oppose the provision: -- \$260 billion in money so people who are unemployed would get an extra \$600 per week for up to four months, on top of state unemployment benefits to make up for 100 percent of lost wages.
