

DATA FOR **PROGRESS**

Between June 10th and June 22nd, 2020, Data for Progress conducted a survey of 556 likely Democratic voters matched to the voter file in the Commonwealth of Kentucky using a text-to-web survey from respondents from a commercial voter file. The sample was weighted to be representative of likely voters by age, gender, education, urbanicity, race, and voting history. The survey was conducted in English.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

Merged original ask + leaners:

Who do you plan to vote for in the upcoming Democratic primary for Senate?
