

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

Millions of immigrant workers in New York have been excluded from the federal government's cash relief and unemployment insurance programs because of their immigration status. Would you support or oppose taxing the state's 118 billionaires to create a \$3.5 billion fund to support workers who have been excluded from the federal stimulus?
