

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

Now, we will present you with a list of public figures. For each, please indicate if you have a favorable or unfavorable view of them. If you have no opinion or haven't heard of the public figure, please indicate that. -- Catherine Parker
