

# DATA FOR PROGRESS

From September 13 to 23, 2024, Data for Progress conducted a survey of 622 infrequent voters (those who have voted in no more than 2 of the last 4 general elections) and newly registered voters (those who first registered to vote after the 2020 general election) in Georgia using SMS, live caller, and web panel respondents. The sample was weighted to be representative of these voters by age, gender, education, race, geography, and 2020 recalled vote. The survey was conducted in English. The margin of error associated with the sample size is  $\pm 4$  percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit [dataforprogress.org/our-methodology](https://dataforprogress.org/our-methodology).

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=622 unless otherwise specified.

**[1]** In the voting booth, which of the following issues do you consider **most** when deciding which candidate to vote for?

**[21]** Please indicate how convincing or not convincing you find each as a reason to **vote in the November 2024 general election**:

Some large corporations have been over-charging us for the essentials we need to live, like food and housing. Vice President Harris will crack down on corporate price gouging at the grocery store, end illegal rent hikes by Wall Street landlords. Harris will make the wealthiest pay their fair share of tax, while Trump's new import tax would cost working families an extra \$3,900 a year for groceries, over-the-counter medications, clothes, and school supplies. Harris will lower prices by cracking down on corporate greed. We need a future we can afford. Vote Kamala Harris on November 5.

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White

**[22]** Please indicate how convincing or not convincing you find each as a reason to **vote in the November 2024 general election**:

I worked for a family-owned company for decades, making a decent wage selling furniture. But when our store was taken over by a Private Equity firm, they scammed customers, cut my job in a mass layoff – and made off with millions. Most of us in Georgia believe that no matter our race, our neighborhood, or the kind of job we do, Wall Street should not be allowed to cut and run, leaving long time employees with nothing, and cheating customers and communities for a quick buck. Kamala Harris has a plan to crack down on these corporate abuses. Harris will end corporate junk fees, price gouging on groceries, and illegal rent hikes by Wall Street landlords. Out of touch Trump will only try to divide us to help himself, and give his rich friends on Wall Street more mega tax cuts. Vote Kamala Harris on November 5th.

**[23] Please indicate how convincing or not convincing you find each as a reason to **vote in the November 2024 general election:****

Since Covid, our grocery bill has gone way up, and so has our rent - while our wages stay the same. Some large corporations have been using inflation as an excuse to illegally over-charge us. Vice President Harris will crack down on price gouging at the grocery store, and cut the cost of housing and healthcare by cracking down on Wall Street greed. She will support good jobs with wages and benefits we can count on. Trump plans to give more tax breaks to the ultra-wealthy, while also charging a new tax on imports that would cost our family \$3,900 a year for items like food, over-the-counter medications, clothes, and school supplies. We need a future we can afford. Vote for Kamala Harris on November 5th.

No matter the color of our skin or what we do for a living, here in Georgia we value our freedoms. Our freedom to choose our own families and futures, and our freedom to prosper with fair pay and a cost of living we can afford. But some billionaires and big corporations are gouging us on rent and groceries, and buying up homes to jack the up rents. They're spending big on certain politicians who want to remove our rights to control our own bodies, and make our own life decisions. Harris will always protect our freedoms and will crack down on corporate greed to lower costs. Vote Kamala Harris on November 5th.

**[25]** Please indicate how convincing or not convincing you find each as a reason to **vote in the November 2024 general election**:

I pack and ship Amazon packages day and night. While Bezos makes billions, I can't afford my bills. People get hurt working in our warehouse, and when we speak out, we are threatened – and even fired. That's why we're voting in this election - because we need better laws to make sure corporations treat working people with respect: fair wages, health care, protections from retaliation, and time off so we can be there for the big moments as our kids are growing up and our parents are growing old. Trump is only about himself, and giving his rich friends mega tax breaks. Stand up for the working class. Vote Kamala Harris on November 5th.
