

Findings: Data for Progress polling finds that battleground voters are in favor of bold, progressive climate policies.

Methodology: Between July 24 and August 2, 2020, Data for Progress conducted a survey of likely voters in Arizona, Maine, North Carolina and Iowa using both web panels and text-to-web. The responses were weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. Not all questions were asked across both modes, meaning that the Margin of Error varies across survey questions between +/- 3 percentage points and 6 +/- percentage points.

NB: subgroups with a n-size less than 100 (<100) are not shown on these cross-tabs. We choose not to display N<100 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

[1] If the 2020 presidential election was held tomorrow and the candidates for president were Republican Donald Trump and Democrat Joe Biden , who would you vote for?

Response	Topline	Democrat	Independent / Third Party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White
We need to listen to scientists and experts and address climate change. A \$2 trillion investment in building new clean energy infrastructure is a much wiser investment than spending much more down the road when climate change is unable to be controlled.	62	83	66	37	67	56	70	57	61	65	82	57
We do not need to worry about investing in addressing climate change right now. The government does not need to be spending trillions of dollars and going into debt addressing the issue of climate change because we don't even know if it's going to be as big of a deal as people make it out to be.	38	17	34	63	33	44	30	43	39	35	18	43

[28] Democratic Presidential candidate Joe Biden has proposed a \$2 trillion investment over 4 years for new clean energy infrastructure projects. Democrats say that this investment will create millions of jobs, aggressively attack the growing climate crisis, and transform America into a clean energy economy. Republicans say that this investment will destroy the fossil fuel industry, which employs millions of people and is a critical part of the American economy. Do you support or oppose this investment?
