

From 9/25/2020 to 9/27/2020 Data for Progress conducted a survey of 1,092 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is +/- 3 percentage points

N=1092 unless otherwise specified. Some values may not add up to 100 due to rounding.

[1] In Massachusetts v. Environmental Protection Agency , the Supreme Court ruled that the Environmental Protection Agency (EPA) can regulate carbon dioxide and other greenhouse gases that contribute to climate change as pollutants under the Clean Air Act. When thinking about this case, what comes closer to your view?	Carbon dioxide and other greenhouse gases are pollutants, and the Clean Air Act gives the EPA the authority to regulate pollutants such as these that can harm public health.	78%	63%	65%
	The EPA does not need to regulate carbon dioxide and other greenhouse gases because the agency does not have the regulatory authority to address global climate change	15	17	25
