📊 DATA FOR *PROGRESS*

From January 9 to January 10, 2021, Data for Progress conducted a survey of 1129 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ±2.9 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

[1] Some lawmakers in Congress are proposing that a DREAM Act for frontline workers be included in the next coronavirus-relief bill. Under this proposal, undocumented immigrants who entered the country as children, the ability to earn United States citizenship working in essential industries such as meatpacking plants, on farms, or in grocery stores, would be provided a pathway to citizenship.

Would you support or oppose this proposal?
