ⅲⅼ DATA FOR *PROGRESS*

From November 10 to 15, 2021, Data for Progress conducted a survey of 1,323 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,323 unless otherwise specified.

[1] The American Rescue Plan, a $1.9 trillion pandemic relief package, was signed into law in March, 2021. It included $1,400 stimulus checks for most Americans, expanded unemployment benefits, an increased child tax credit, money for food assistance, funding for state's Medicaid programs, aid to state and local governments and tax credits to encourage businesses to offer paid sick and family leave.

Based on what you know now, do you support or oppose the American Rescue Plan?
