📊 DATA FOR *PROGRESS*

From March 3 to 4, 2021, Data for Progress conducted a survey of 1,192 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

[1] The $1.9 trillion American Rescue Plan is a pandemic relief package that includes money for vaccines and testing, another round of stimulus payments for most Americans, expanded unemployment benefits, money to reopen schools and grants to businesses affected by the pandemic.
