

DATA FOR PROGRESS

From July 30 to August 2, 2021, Data for Progress conducted a survey of 1,254 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

N=1,254 unless otherwise specified. Some values may not add up to 100 due to rounding.

[1] The United States currently has a "Buy American" rule that requires any products purchased by the federal government with taxpayer dollars to have at least 55 percent of the value of their component parts made in the United States.

President Biden is proposing a new government rule to raise this requirement to 60 percent, with a gradual increase to 75 percent over the next nine years.

Do you support or oppose this rule? (N=638)

[2] President Biden has recently proposed a new rule to increase transparency and accountability in "Buy American" rules for purchases made by the government using taxpayer dollars. Under this new rule, federal contractors would be required to report the total amount of parts in their products that were made in America.

Do you support or oppose this rule?

		D	I	R
Strongly support	38%	51%	35%	27

[3] Because of the coronavirus pandemic, there is a limited supply of certain products that are essential to manufacturing supply chains like semiconductors, large-capacity batteries, critical minerals, and pharmaceuticals.

Do you support or oppose President Biden taking action to prevent future shortages by supporting the expansion and development of domestic supply chains for these critical products?
