

# DATA FOR PROGRESS

From November 9 to 15, 2022, Data for Progress conducted a survey of 1,282 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is  $\pm 3$  percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,282 unless otherwise specified.

**[1]** Some lawmakers are considering a proposal that would **expunge marijuana convictions** from criminal records for non-violent offenses. This means that people with a marijuana-related conviction would have the charge removed from their record.

Do you support or oppose expunging marijuana-related convictions?
