

DATA FOR PROGRESS

From June 15 to 21, 2022, Data for Progress conducted a survey of 1,455 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,455 unless otherwise specified.

[1] As you may know, on January 6th, 2021, hundreds of supporters of former President Trump broke into the U.S. Capitol Building in an effort to overturn the 2020 presidential election results.

How important or not important is the January 6th attack on the U.S. Capitol and the events leading up to it to you?
