📊 DATA FOR *PROGRESS*

From July 27 to August 1, 2022, Data for Progress conducted a survey of 383 likely Democratic primary voters in Vermont using SMS and web panel respondents. The sample was weighted to be representative of likely Democratic primary voters by age, gender, education, and race. The survey was conducted in English. The margin of error is ±5 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=383 unless otherwise specified.

[1] On **August 9**, 2022, there will be a **Democratic primary election for the U.S. House of Representatives** and other offices. How likely are you to vote in this Democratic primary?
