

DATA FOR PROGRESS

From December 6 to 9, 2024, Data for Progress conducted a survey of 1,224 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is ± 3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,224 unless otherwise specified.

[2] The Equal Rights Amendment (ERA) is a proposed amendment to the U.S. Constitution. The ERA would guarantee equal legal rights for all citizens regardless of their sex. Congress approved the ERA and 38 states have ratified it, meaning it has met all of the qualifications to be added to the U.S. Constitution as the 28th amendment.

Some say President Biden should instruct the National Archivist to publish the ERA and adopt it as the 28th Amendment to the Constitution.

Do you support or oppose President Biden adopting the ERA as the 28th Amendment to the Constitution?
