

# DATA FOR PROGRESS

From February 28 to 29, 2024, Data for Progress conducted a survey of 1,197 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is  $\pm 3$  percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,197 unless otherwise specified.

## [1] How important or not important do you think it is to protect Americans' access to:

— In vitro fertilization (IVF), a fertility treatment

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino

**[3]** In vitro fertilization (IVF) is a treatment in which eggs are retrieved from a woman's ovaries and fertilized with sperm outside the body in a laboratory, often used to assist couples with infertility in conceiving a child.

Some lawmakers have proposed the Access to Family Building Act, which would provide federal protection to families seeking access to IVF and other reproductive assistance methods.

Do you support or oppose the Access to Family Building Act?
