

# DATA FOR PROGRESS

On June 28, 2024, Data for Progress conducted a survey of 1,011 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and 2020 recalled vote. The survey was conducted in English. The margin of error associated with the sample size is  $\pm 3$  percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit [dataforprogress.org/our-methodology](https://dataforprogress.org/our-methodology).

To read our methodology for classifying respondents as swing voters, please visit [dataforprogress.org/insights/2024/5/30/measuring-the-swing-evaluating-the-key-voters-of-2024/#methodology](https://dataforprogress.org/insights/2024/5/30/measuring-the-swing-evaluating-the-key-voters-of-2024/#methodology)

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,011 unless otherwise specified.

**[1]** Former President Trump has been indicted four times on federal and state charges, including for criminal conspiracy to overturn the results of the 2020 election and inciting the January 6th, 2021 attack.

The Supreme Court will decide whether Donald Trump should have immunity from being criminally prosecuted for any "official acts" he took while he was in office.

Do you think Trump should have immunity from criminal prosecution, or should he not have immunity?
