

# DATA FOR PROGRESS

From July 10 to 11, 2024, Data for Progress conducted a survey of 1,220 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and 2020 recalled vote. The survey was conducted in English. The margin of error associated with the sample size is  $\pm 3$  percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit [dataforprogress.org/our-methodology](https://dataforprogress.org/our-methodology).

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,220 unless otherwise specified.

## [1] Which of the following statements comes closest to how you feel, even if neither are exactly right?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino	Not Swing Voter	Swing Voter
Questions about President Biden's mental and cognitive fitness are mainly the concern of out-of-touch elites.	26	31	23	23	26	26	29	25	26	27	26	26	29	27	19
Questions about President Biden's mental and cognitive fitness are mainly the concern of Democratic voters who want to defeat Donald Trump.	59	60	56	62	57	62	56	61	58	62	51	61	56	60	59
