

DATA FOR PROGRESS

From July 12 to 14, 2024, Data for Progress conducted a survey of 1,246 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and 2020 recalled vote. The survey was conducted in English. The margin of error associated with the sample size is ± 3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,246 unless otherwise specified.

[5] Recent reporting revealed that an upside-down American flag was flown in the front yard of Supreme Court Justice Samuel Alito's house in the days after January 6, 2021, a symbol that Trump supporters used as part of the "Stop the Steal" movement. Despite this, Justice Alito declined to recuse himself from cases involving January 6.

Additionally, reports show that Justice Alito did not disclose accepting gifts from large right-wing donors who have had cases before the Supreme Court.

Some have argued that this warrants impeachment, while others have argued that this does not warrant impeachment.

Given this information, do you think Justice Alito should or should not be impeached from the Supreme Court?

[6] Since Clarence Thomas joined the Supreme Court, he has been treated to extensive financial gifts and luxury vacations by Harlan Crow, a billionaire who has made significant political donations exclusively to Republican candidates and causes. The trips were only disclosed by Thomas once the press revealed them.

Additionally, reports have shown that Justice Thomas' wife, Virginia "Ginni" Thomas, was involved in efforts to reverse the 2020 presidential election and that she attended Trump's rally on January 6, 2021 before the U.S. Capitol attack. Despite this connection, Justice Thomas declined to recuse himself from cases involving January 6.

Some have argued that this warrants impeachment, while others have argued that this does not warrant impeachment.
