

DATA FOR PROGRESS

From July 10 to 11, 2024, Data for Progress conducted a survey of 1,220 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and 2020 recalled vote. The survey was conducted in English. The margin of error associated with the sample size is ± 3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,220 unless otherwise specified.

[16] "Dwarf tossing" is a bar sport in which a little person is thrown by bar patrons to see who can throw the little person the farthest.

Some lawmakers are considering making dwarf tossing illegal.

Supporters of dwarf tossing say that the little people who participate in the sport are freely choosing to do so and may be financially compensated for their time.

Opponents of dwarf tossing say that the sport is dangerous and discriminatory by normalizing the picking up and throwing of people who are of short stature.

Knowing what you know now, do you support or oppose **banning** dwarf tossing?
