

From August 6 to 13, 2024, Data for Progress in partnership with State Revenue Alliance and Fair Share America conducted a survey of 8,017 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and 2020 recalled vote. The survey was conducted in English. The margin of error associated with the sample size is ±1 percentage points. Results for subgroups of the sample are subject to increased margins of error. For more information, please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=8,017 unless otherwise specified.

[1] Do you support or oppose **raising** taxes on wealthy corporations?
