

DATA FOR PROGRESS

From April 18 to 21, 2025, Data for Progress conducted a survey of 1,171 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is ± 3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

N=1,171 unless otherwise specified. Some values may not add up to 100 due to rounding.
